

SUPER SWEET BEETS - PRODUCT DECLARATION

Products: Ready-to-Eat Sweet Brine Beetroot – Diced, Sliced & Wedged

1. Product Declaration

Mulyan Pty Ltd declares that the above products are manufactured in accordance with documented food safety and quality management procedures and, to the best of our knowledge, comply with the applicable requirements of the Australia New Zealand Food Standards Code.

2. Food Safety

The products are manufactured under a documented HACCP-based Food Safety Program developed in accordance with **CODEX Alimentarius Guidelines for HACCP** including the CODEX General principles of Food Hygiene (CAC/RCP 1-1969 revision 2020), Code of Hygienic Practice for Fresh Fruits and Vegetables (CAC/RCP 53-2003, amended 2017) and the Code of Practice for Packaging, Transport of Fresh Fruit and Vegetables (CAC/RCP 44-1995 amended 2004), and FSANZ Food Standards Australia and New Zealand. Controls include approved supplier management, process control, cleaning and sanitation, traceability, product release and verification.

3. Agricultural Raw Materials

Fresh beetroot is sourced from our paddocks. Agricultural chemicals are applied in accordance with Australian regulatory requirements and applicable withholding periods. Where required, compliance with Maximum Residue Limits (MRLs) is verified against Standard 1.4.2 – Maximum Residue Limits of the Australia New Zealand Food Standards Code.

4. Acidified Product

The product is an acidified ready-to-eat vegetable (Processed beetroot in an acidified brine). Product formulation and processing are designed to comply with the applicable requirements of Standard 2.3.1 – Fruit and Vegetables, including the finished equilibrium pH requirement applicable to fruit and vegetables packed in brine.

5. Allergen Declaration

Mandatory allergen declarations are made in accordance with the Australia New Zealand Food Standards Code. No known allergens are used at the site. Any other allergen risks are managed through documented supplier approval, ingredient Monitoring, segregation where applicable, and cleaning procedures.

6. Product Information:

The accuracy of the Product Information is limited to the following degree:

- a) that the Product Information in relation to ingredients obtained from a third party relies in good faith on Product Information provided by that third party.
- b) that the information is, to the best of the supplier's knowledge (having undertaken all reasonable verification procedures), true and accurate in relation to all other substances and processes.

7. Storage & Distribution

Finished product is stored and distributed under controlled conditions to maintain product safety and quality. Storage instructions are provided on the product label and Technical Data Sheet.

8. Traceability

Each finished product batch is traceable through documented raw material, processing, packaging, and distribution records, as well as the
